BMZ

INTELLIGENT ENERGY STORAGE. INDOORS AND OUTDOORS.

With increasing demand for self-reliance from the fluctuating energy market, BMZ's POWER2RAXX presents a groundbreaking solution for your company. **POWER2RAXX** opens the door to autonomous energy supply.

POWER2RAXX is your robust energy storage system for indoor and outdoor use. Guaranteed for 10 years thanks to the long-life battery modules.

Using an innovative design, **POWER2RAXX** raises the bar with intelligent technology and offers numerous possibilities for driving down the costs of your energy consumption. In addition to using the system as an emergency power reserve, you can also optimize your own consumption, cap peak loads, or simply expand the current output of your existing power supply. All of the above enable the optimal use of self-generated energy

and reduces your dependence on external power. Your costs will decrease through the reduction of the amount of energy fed from the grid and by prioritizing your own power generation plants, such as PV systems, CHP plants, wind and hydropower plants.

The system is extremely easy to commission, and controlling and monitoring conveniently takes place via an app on your smartphone. We are also offering 24-hour service.

And for those who want more: **POWER2RAXX** is scalable! The storage capacity is virtually infinite when switching multiple devices in series.

POWER2RAXX – Innovative, flexible, robust

 Scalable as needed

 Highest safety standard

 Indoor and outdoor

 Engineered in Germany

 Guaranteed to last for 10 years

 On-site service

 Robust

POWER2RAXX

⚡ Scalable as needed

The **POWER2RAXX** system is extremely flexible and can be adapted to the specific requirements of any application. With a standard capacity of 51 kWh, which can be easily scaled to meet your requirements, this system offers the flexibility you need to achieve self-sufficiency.

⚡ Indoor and outdoor

POWER2RAXX is suitable for both indoor and outdoor use and offers maximum flexibility when it comes to using the space available on your premises.

⚡ Guaranteed to last

With a 10-year warranty, the **POWER2RAXX** ensures that your investment is safe. This means you can rest assured that your energy storage system will continue to deliver optimum performance and a rapid return on investment in the future.

⚡ Robust

POWER2RAXX is developed to withstand the demanding requirements of commercial and industrial environments. Its robust construction is engineered for continuous and trouble-free operation.

⚡ Highest safety standard

POWER2RAXX meets all relevant product standards and, thanks to a sophisticated safety concept, offers the highest level of safety and reliability for your company.

⚡ Engineered in Germany

As a battery expert with more than 30 years of experience and production in Germany, BMZ offers premium quality. **POWER2RAXX** is the convergence of German engineering and international design expertise.

⚡ On-site service

With a dedicated team of experienced professionals, BMZ offers fast and competent service that is available to you around the clock for questions or problems.
